**What are the  
differences with the Lattice Logic for  
Children program ?**

The "Esprit d'Enfance" program is designed  
for younger children and is also suitable for  
therapeutic care in office (in individual  
session) while the LLCH is initially planned to  
teach whole classes (although many  
therapists I trained using parts of the

program in their  
office)

**What are the  
similarities  
between the two  
programs ?**

They are both based on the teaching of the

same system energy anatomy UCL / EMF  
Balancing Technique.

But they are  
complementary  
because they are  
aimed at different  
audiences and in a  
different context.

Finally, the cultural  
specificities of  
the French intellectual functioning (who  
wants to understand all) are integrated.

**Must be trained to LLCH to follow the  
"Esprit d'enfance" program ?**

Not at all. You are free to do one or the  
other or both.

**A French program :**  
**Certificate Ecole de  
l'Energie - Entre Ciel et  
Terre** (created by **Maryline  
Durand**, mother of 5  
children, a former teacher
